

## TECHNICAL VISIT

UNIVER pepper processing plant  
September 12, 2106  
17:00 – 19:00

Univer Product Zrt. is one of Hungary's leading food companies. The company primarily deals with the production and distribution of condiments – **seasoning creams made from world famous Hungarian red pepper**, garlic and onion-based products, mayonnaise, mustard, ketchup, salad dressings and table sauces - and other food products – including tomato paste, jams, fruit juices, vegetable creams, baby food and bakery products. Based in Kecskemét, the company has been in 100% Hungarian ownership since its foundation in 1948, and has achieved considerable success in its operation.

Univer Product Zrt.'s results owe much to the successes of the Piros Arany (Red Gold) pepper cream (manufactured since 1965) and Erős Pista (Strong Steve), a raw, ground, hot pepper product.

**We warmly invite you to visit our pepper processing plant at Kecskemét-Hetényegyháza.**

The seasonal timing is perfect: our visitors will experience the complete manufacturing process from fresh paprika processing to consumer product packaging. Moreover, Univer's new pepper seed manufacturing facility is ready to be explored.

### **Detailed program:**

- 17:00 – 17:30 Welcome reception with bakery treats made by Univer, cold and hot refreshments
- 17:30 – 18:30 Factory tour in earphone tour-guided groups
- 18:30 – 19:00 Departure
